

VACUMET VD

Vacuum for diapers

SANITATION AND HYGIENE SOLUTIONS

ANTIBACTERIAL

NO ODORS

FAST & EASY

-60/70%

BEFORE AFTER

VACUMET reduces the volume of sanitary waste through tested and certified vacuum technology.

Compacts and hermetically seals medical waste for safe storage, even for some days.

The effective, fast and practical solution to ensure the highest standards of hygiene.

VACUMET vacuum seals sanitary waste in special plastic bags: reduces the risk of accidental contact and **eliminates odors**.

Cut down up to 3 times the number of pickups for disposal, resulting in significant cost savings.

HOW IT WORKS: Place the bag with waste inside VACUMET and start the machine. The UVC lamp ensures high standards of hygiene and prepares for the vacuum process. In just a few minutes **reduces the volume of sanitary waste by up to 1/3**.

IDEAL FOR: health care facilities such as Nursing Homes, Assisted Living Residences and Clinics, Hospitals, Day Care Centers.
